

Assignment 2.1.1 Applications

Find an application program on your computer (do not choose MS Word or a web browser). Open the program and explore its functions, then answer the following questions.

1. What application did you open?

2. What steps did you take to open it?

3. What does the application do? (Answer in one or two sentences.)

4. Is this application an example of software or hardware?

5. How did you close this application?

Grading Rubric:

Coverage: ABE Section B

1. Any application

2. Found icon on desktop and double-clicked on it with mouse. Or: used Start icon and searched list of applications, clicked on name.

3. Brief description

4. Software

5. Clicked x in upper right corner with mouse; or opened File menu and clicked Close.
